February 23 & 24 • 9-4 • \$275

## ADDING FIGURES TO THE LANDSCAPE

*"A good painting is one with strong values and an interesting arrangement of shapes."*

Working from photographs and references provided, the focus of this workshop will be in thinking of the figure as another shape in the Oil landscape. We will also discuss painting materials and the advantages of working with a limited palette. There will be demos for every exercise! George will share his exciting experiences in painting the Panama Canal Expansion as well as his series documenting the construction of Shanghai Disneyland. This workshop is a great start towards reaching your creative goals for the new year! **Lunch & all supplies included**
